

Bootdisks: Bootdisk HDD Regenerator 1.5.1

- Ability to detect physical bad sectors on a hard disk drive surface.
- Ability to **repair physical bad sectors** (magnetic errors) on a hard disk surface.
- The product ignores file system, scans disk at physical level. It can be used with **FAT**, **NTFS** or any other file system, and also with **unformatted** or **unpartitioned** disks.
- Bootable regenerating diskette allows starting regenerating process under DOS automatically.
- **Bootable regenerating CD** can be created from the program and used to automatically start regenerating process.
